Admins can access the scheduler at any time	Check this to ensure Administrators can access the scheduler even when it is closed to the public.

For schedulers with multiple booking dates, close booking:

Close booking at a specific time of day, XX days before the appointment.

Close booking XX hours/days/weeks/months before the appointment

Close booking XX hours before the first appointment of the day.

Booking Limits:

Maximum Per Child	Sets a cap on the number of appointments allowed for each individual student. Set to 0 for no limits.
Duration between appointments	Enter a duration to prevent customers from booking too frequently. If a customer attempts to book within this window, they will see your custom "Cannot Book" message.
per resource	Restricts the frequency of bookings with a specific staff member or room. Select this to allow customers to book again quickly as long as they choose a different resource.

Cancellation Policy

Customer may cancel their appointment up to XX hours/days/weeks .	Use this setting to prevent participants from cancelling their appointments within a specific timeframe (hours, days, or weeks) before the scheduled start time. Set this value to 0 if you wish to allow cancellations up until the last minute. Conversely, a very high value effectively disables the cancellation option for participants. Note: Closing the scheduler only prevents new bookings; it does not stop participants from cancelling existing appointments unless this lock-out period is active.
