

Viewing Appointments in the Admin UI

You can adjust several display settings to make the Appointments page easier to read.

Adjust row height (make time slots taller): On the **Appointments** tab, hover over one of the horizontal lines just above a time marker, then click and drag vertically.

Adjust column width: Hover over the space between two resource columns, then click and drag.

Adjust time markers and gridlines: Go to **Settings / Admin View Settings** and modify "**Time Mark Display on the Appointments Page.**"

Adjust the visible time range (scroll bar limits): On the same **Admin View Settings** page, under "**Hours Visible on the Appointments Page,**" set the minimum and maximum hours shown.

“ This range applies account-wide per event — it is **not** day-specific. If one day has slots from 8-5 and another has slots from 9-6, set the range to **8-6** so the scroll bar covers all possible slot times across every day.

Revision #4
