Appointment Fields

Can I prompt my parents for a phone number? or additional information?

See the following page for complete details on collecting information from your parents:

Collect Parent Information

Best Practices

With our PTA products, the **parent name** and **email address** are collected when the parent logs in. The **student name** is collected when the parent connects their student to their account.

On the **Settings / Appointment Fields** page, you generally should **not** include prompts for **Student Name**, **Parent Name**, or **Email Address**.
